A. Brady Hauglie: (bah0083@auburn.edu)
   Leo Hernandez-Rivera: (lzh0070@auburn.edu)
B. Our code does work
C.
   a. Lab 1-1 commands:
      i. Compilation:
         1. gcc server11.c -o server11
         2. gcc client11b.c -o client11b
         3. gcc client11c.c -o client11c
      ii. Running:
         1. ./server11
         2. ./client11b hostname
         3. ./client11c hostname
   b. Lab 1-2 commands:
      i. Compilation:
         1. gcc server12.c -o server12
         2. gcc client12.c -o client12
      ii. Running:
         1. ./server12
         2. ./client12 operator operand operand
D. No problems/errors
